Election Blacklegs and Card Stockers. The Know Nothings, Americans, Opposition ists, or whatever name they are known by, have had very bad schooling of late. They have become regular carders. They have carried the shuffling process to such an extent that they can-SNYDER & M'CALLUM, not vote at an election without stocking the cards. What great blackleg has taught them the art so Commission and Produce Merchants, thoroughly we don't know, but whoever he may be, he is certainly an adept in the science of swindling at cards.

River and Steamboat News, Commercial Matters, etc., see Fourth Page.

Particular attention paid to the sale of Flour, On Saturday last the ballots used by these fellows were printed upon card paper. The backs of the ballots were striped, cross-barred, starred, etc., etc., like the backs of cards used upon steamboats, and in low gambling saloons. Of course, Commission & Forwarding Merchants the political blacklegs that got them up knew them as well by the backs as by the faces. To know them by the backs was the intention of those who devised and executed the fraud.

By this means the Opposition blacklegs knew the vote of the city at every hour in the day .-They had their special clerks at the voting places, who told the vote from the back of the cards used. These clerks sent reports to a central committee, Southwest corner of Twelfth and Grayson streets, who summed up the several wards and arrived at the result for the city at large. In this way the bject of the charter in making the vote secret by ballot, to prevent frauds upon the elective fran-

chise, was entirely defeated. Had these blacklegs found that the Democracy were ahead, at any time they could have rallied their bullies and turned the tide. And had this failed they could have destroyed the ballots of any ward that was against them, so as to elect Paper of all Kinds. their men. We do not particularly regret, there-CASH PAID FOR RAGS at the Office of the LOUIS-VILLE PAPER MILL, No. 477 Main st. d4 ore, that the Opposition carried the day, for we should have been much mortified at the frauds hey might have resorted to if the vote of the city had been decidedly against them. There is no telling how many stocked cards they would have stuffed into the ballot box, nor how many un-Commission & Forwarding Merchants

stocked ones they would have destroyed. And as the matter now stands, no one can tell whether the count of the votes is honest or not-The blacklegs who stocked the cards knew the condition of things before the ballot-boxes were pened, and we cannot have too much confidence men who will thus act in open defiance of law. affray at Oakland some time ago. If they would so stock the cards as to be able to tell the vote of the city at any moment during the rogress of an election that by law was secret. they would do anything else necessary to secure a majority of the votes for themselves, either by violence while voting, or by fraud in adding to or taking from the vote after the polls were closed.

WE are now receiving our NEW SPRING STOCK, which comprises a great variety of desirable Goods, and to which we invite the attention of buyers.

BRYANT, HARRIS & BARBEE, feb21 d2m&w2m-9 INFORMATION WANTED .- Three weeks ago last Friday, James Mulcahy, his wife and three chilren, arrived here on a steamboat from Pittsurgh. Marshall says he does not know where he stands in politics; that parties change even too fast for m! that he will run, if he runs at all for Congress, as an Old Line Know Nothing. Such are the Colonel's private opinions, publicly expressed. What his public opinions will be, remains for the curious future to disclose.

We would call special attention to the large sale of spring and summer dry goods, and other desirable spring merchandise, commencing this morning, Tuesday, at 10 o'clock, at auction rooms of Messrs. S. G. Henry & Co. Mr. Henry authorizes us to say that this is one of the most extensive and best assorted stocks he has ever offered at auction, and comprises some thousand lots of desirable goods.

DEATH OF LOGAN McKNIGHT .- We regret to earn, by a telegraphic dispatch from New Orleans of the death in that city on Saturday last, of Logan McKnight, son of Virgil McKnight, President of the Bank of Kentucky. MAT. PEEL'S MINSTRELS .- These famous delineators of negro character were greeted with a large audience last night at Masonic Temple. All were delighted with their unique performances. They are the best performers in their line that have risited Louisville this season. Go and see them.

The consequences are just what were predicted. The petty States of Central America, knowing that they are not to be held to account, are evidently determined to "crush out," not only English with Yankee influence, but Yankee commerce, on the Isthmus, and the determination, it would now seem, is to be strengthened by English and French—but especially by French—support."

During his resi-dence in Washington, he always said, and we believe truly, that he was awaiting detailed instructions upon the subject. He never held any communication, of any kind, respecting it either with the President or the Secretary of State. All that ever transpired in relation to it was between Lord Napier, the acknowledged Minister of Great Britain, and the government of the United States. After Sir William's departure the substance of these instructions was communicated to the Secretary of State through Lord Napier, in fact the government have never heard from him, either orally or in writing, in relation to the matter until the present moment.

3d. In the course of the negotiation, Lord Na-bier did at one time suggest that he thought the British government might favorably receive a proposition to abrogate the Clayton and Bulwer proposition to abrogate the Clayton and Bulwer treaty; but he gave notice that, if this were done, the British government would insist upon retaining the Bay Islands, the most important part of their possessions in that region. This proposition was, of course, rejected. Our policy, from the beginning, was to exclude Great Britain from the Mosquito protectorate and the Bay Islands, and if we had acceded to this suggestion, Great Britain would have retained possession of by far the most commanding position on the coast of Central America. We should then have had no other alternative but to abandon the Mouroe docother alternative but to abandon the Monroe doc trine, or attempt to drive her out by force of arms Surely no American statesman could acceded to such a proposition.

THE CASE OF LEWIS EARLY—HE IS REMANDED INTO SLAVERY—HABEAS CORPUS.—Lewis Early, claimed to be the fugitive slave of George Kilgour, of Cabell county, Virginia, was remanded to slavery on Saturday, by U. S. Commissioner Chas. C. Browne.

mon Pleas, was served upon the U.S. Marshal Friday evening, requiring him to show authority for detaining the prisoner. Upon a hearing, the return of the Marshal was sustained by Judge Dickson, and the writ was dismissed.

The argument was resumed by Commissioner Browne, in which Mr. Jolliffe denounced the claimant and his abettors. The Commissioner reviewed the case, and remanded the fugative to the custody of the U.S. Marshal, for re-delivery to the claimant.

Meantime application was made to Judge Leavitt for a writ of habeas corpus. He retused to grant the writ until the Commissioner should render decision. When this was done, he proceeded to grant the writ, but it was too late. In less than three minutes the poor slave was hustled down

to re-capture him could be made.

It was alleged that a colored man of this city had offered \$1,000 for Lewis in the morning, in order to liberate him. A short time before the departure of Lewis, Mr. Jolliffe instituted civil proceedings in the name of Lewis Early against his master—Kilgour—for false imprisonment, the case to be tried on the 30th inst. In conclusion, we remark that the way they have of running negroes out of that U.S. Court House to Kentucky, makes it difficult for the friends of the poor fellow to steal a march on them.— Cin. THE NEXT CONGRESS.—Without adequate resson, it has been generally supposed that the next House would have an Opposition majority. The prospect is, however, that the majority will be nominally, at least, Democratic, and that the Democrats will control the organization. This is founded upon the supposition that all the South Americans except one, and all the anti-Lecompton Democrats.

So the next House will hardly be so decidedly hostile to the Administration as the last House, in which one hundred and seventy-six members followed the lead of Galusha A. Grow upon the most critical and important question of the season.—Washington Correspondent Baltimore Sun.

The Journal's Pay for Itself, and its Paragraphs for Others. One of the arguments used by the editor of the Journal anterior to the recent municipal election in this city, was that if the city election should go in favor of the Opposition, it would have a good influence upon the prospects of Bell over Magoffin in the State race. And now that the election is over, and the Opposition are victorious, the

same editor is rejoiced at the effect the victory

will have upon the fortunes of Bell for the Gov-Now, it is morally certain that Bell has no chance to be elected Governor of Kertucky. Magoffin will beat him by a tremendous majority .-There can be no doubt about this result in the mind of any intelligent man who has the coolness to look at things as they are. There is not an Oppositionist in the State that will wager a dollar upon the election of Bell. All that they say of the hopes of Bell is gas let off for effect. Revill beat McKee some 14,000 votes, and Magoffin will beat Bell more than that number. This every intelligent man believes who has given the thing

a moment's thought. Why, then, does the editor of the Journal lead his readers so far astray as to induce the confiding to believe that Bell has any chance? Why did he say, before the election, that if the city should go for the Opposition it would tend to secure the election of Bell? And why does he now, that the result is known, say that the prospects of Bell are bright? He well knows that the State at large is Democratic, and that she has been so ever since the establishment of Know Nothingism within her borders. The city of Louisville being Know Nothing has no influence upon the State where the yeomanry of the land are not under the terror of election bullies.

Some people think that the editor of the Journal, together with the watchmen and city off cials here, keep up their organization and speak encouragingly to the rest of the State for the pay they get from the city. There are some \$50,000 per year of the people's money distributed among the proprietors of the Journal, the city officials and the watchmen. This is quite a considerable sum to be divided out among them, and of course, no one of them is willing to give up his share of the proceeds. Hence, the city officials and the watchmen work hard at elections, and the Journal trumpets their deeds all over the State. It would not do, of course, for the organ to confine its thunder to the city limits. Something must be said for the State at large, and hence, the many encouraging paragraphs in the organ for the benefit of the hopeless party in the State at large. The poor fellows in the rest of the State are contented with these encouraging paragraphs, while

the organ and the watchmen and the officials in this city get something better than gassy paragraphs. They get something like \$50,000 hard cash for the part they play in the political farce of the State at large. But if the Opposition in the State at large are

satisfied with the paragraphs of the editor of the Journal while the editor gets the money, the Democracy ought not to complain. The pay of the two is different, but if it suits them it is all right. We venture to say, however, that if the organ's pay from the city were cut off for a season, it would do much worse for the party in the State hereafter than it did when it sold out the concern to Bell. To show that we are right in this we make the following suggestion to the Councilmen about to assume the government of the city: Let them give the public printing to our neighbor of the Democrat, (the Courier is too much crowded with advertisements and other matter to think of doing the public printing,) and we will wager the value of the same that the Journal will never print another laudatory paragraph of the watchmen or city officials in Louisville, and that it will cease to encourage the Opposition in the State at large with a single hope of electing the Hon, Joshua F. Bell over the Hon, Beriah Ma-

The Downfall of Know Nothingism in Louisville. Since the party now in power in Louisville came into existence we have had three elections for a Mayor. It is encouraging to the lovers of law and order to compare the votes on these three occasions one with another, and to see how the present faction in power is gradually becoming powerless.

In 1855 the party held its first regular election for Mayor under the name of Know Nothing. John Barbee was the K. N. candidate and James S. Speed the Democratic. Barbee beat Speed 2,953 votes. This was the first race the Know Nothings made for Mayor, and the majority was enormous. It was worthy of the party that fought its way to the ballot box and secured the preponderance of the voting population by knocking down, dragging out and frightening all who did not present a ticket of the right color. It was a majority worthy of the blood and violence and fraud and corruption in the midst of which it was re-

The next election for Mayor came off in 1857 .-Gen. W. S. Pilcher was the K. N. candidate, and Capt. John Martin the Democratic. The Know Nothings had now assumed the name of Americans, and thereby lost considerable of their

The third and last regular race for the Mayoralty was in 1859—last Saturday, April 2d. At and ends of a shipyard. this time Thos. H. Crawford was the K. N. candidate, and the Hon. John Joyes the Democratic .-Crawford beat Joyes 430 votes. This was done under the name of Opposition, and was a falling off of 728 from the American vote, and of 2,522 from the Know Nothing, which, as said before, combined the strength of the Plugs, and their kindred bands of shoulder-hitters, desperadoes, and elec-

It is evident, therefore, that the party in power have only to change their name once more, and to make one more race to be wiped clean out. They have only a margin of 430 now to go upon, al. hough they started out in 1856 with 2,958. As said before, they fell off 1,800 in 1857, and 728 in 1859. Of course, a similar falling off at the next race, will leave them in the minority. This is a fixed fact about which the figures leave not a shadow of doubt. Any man can cypher out the result, who understands figures and will take the

additions and the subtractions. All that the Democrats have to do, therefore, is to bide their time. Patience is all that is necessary for the long suffering that has been endured.

Louis Napoleon Speaks to Germany. The Moniteur publishes another official article on the war question, of which the following is a

telegraphic summary: It commences by stating that part of Germany now presents an appearance both afflicting and astonishing. France has occupied herself with the consideration of the alarming state of affairs unravel peacefully the existing difficulties, and to prevent further complications, which are always the result of want of foresight and decision. The article proceeds to show that the mistrust of a part of Germany springs from reflections unjust and painful to France, and shows contempt for the independence of her policy. The existence of a great nation like France is not restricted to her frontiers, but manifests itself to the world at large by salutary acts. France used her endeavors for the benefit of her national power and the adlarge by salutary acts. France used her endeavors for the benefit of her national power and the advantage of civilization. When a nation relinquishes this character, she relinquishes her rank. To contest her right to this legitimate influence would be to mistake the rights of France. The Emperor understood how to overcome all prejudices when he ascended the throne. What would have happened if, by acting otherwise, he had dices when he ascended the throne. What would have happened if, by acting otherwise, he had rejected with distrust the servants of a former dynasty; and if, instead of establishing the tranquility of Europe on a firmer footing, he had taken it by redeeming at the price of European security and independence the recollections of 1814 and 1815? Such, however, he has not done. "The Emperor does not hold the whole of Germany responsible for the errors and malevolence of certain manifestations which spring rather from mean resemblent than from serious fears. many responsible for the errors and malevolence of certain manifestations which spring rather from mean resentment than from serious fears. Germany has nothing to anticipate from us for her independence. We sympathise with her nationality. By showing herself impartial she will show herself foresighted, and will do better service to the cause of peace. Prussia understood this line of policy when she united herself with England in order to promulgate wise counsels at Vienna, at a time when agitators were endeavoring to arouse angry passions, and to form a coalition amongst the states of the German Confederation against us. The attitude of Prussia is certainly more advantageous to Germany, than the excitement of those who, appealing to the malice and prejudice of 1813, expose themselves to the risk of irritating national feeling in France. The French people are susceptible in regard to its henor, but at the same time moderate in the employment of its strength. If threats will arouse it, it may nevertheless be pacified by conciliation except five will co-operate with the Democrats.

PAUL MORPHY.—Mr. Morphy is now engaged at the Cafe de la Regence in a most singular game of chess with a party of amateurs, numbering one hundred. These hundred persons have subscribed to give Mr. Morphy a public dinner before his departure, but before that event comes off, they are playing a game thus: The hundred are divided into five sections of twenty each, who are to play among themselves until one of the twenty is acknowledged the victor of the others. When each of the categories shall have thus selected one of their number as their champion, the five champions are to play against Morphy at odds graduated to the respective strength of each actegory.—Paris Letter.

actegory .- Paris Letter. THE MISSIONARY BRIG MORNING STAR A FAIL The Missionary Brig Morning Star a Failure.—There are sorry accounts from the Sandwich Islands concerning the brig Morning Star the missionary packet lately built by the contributions of the Sunday School children in the Atlantic States. The Honolulu Commercial Advertiser says she had put into that port for repairs. Not only were the timbers so rotten that they could be easily picked to pieces with the fingers, but the whole stern was a most curious combination of patch-ways, made up of the refuse odds.

Many of the largest retailers will not buy any other than these popular Skirts, and their customers pronounce them superior to any they have ever seen worn, the hoops being so very elastic and pliable, that the Skirt is never thrown out of shape.

I am told that they received a new stock of Men's, Boys' and Youth's Clothing and Furnishing Goods last week, and I suppose the crowd is a little greater than usual; in fact Brother John told me that several accidents occurred there last week in consequence of the dense rush of customers. It must be admitted that the great crowd you see going and ct ming from there every day must be taken as evidence that Blanchard & Son have the best stock of goods in the city, and sell much cheaper than anybody else. ## THE VESPER GAS AIR LIGHT.

The Cheapest, most Brilliant, and most Conven Artificial Light in the World. Artificial Light in the World.

THE Vesper Gas Light has won for itself a reputation for elegance, economy, safety and simplicity, far beyond any other artificial light. The Vesper Gas fiame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimming of wick; and the construction of the fixtures is so simple that it is not liable to get out of order, and a child can manage it readily. The gas burnt in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, a., by a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intesse light. producing perfect combustion and a most intense light.
The light has been pronounced, by those who have had
t in constant use for months, as most pleasant to the it in constant use for months, as most pleasant to the eye while reading or sewing, the being no flickering or unsteadiness in the fame. The Vesper Gas light is portable, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselves are adacted in styles to suit all tastes, from the plain slegle light burner to the most costly chandelier. Each chandelier is perfect in itself; there is no outlay to be made for service pipes. The gas is generated in the burner, and all fixtures, from the cheap single light burner to the expensive chandelier, are miniature gas works in themselves. They are sold at prices which do not exceed the cost of ordinary gas fixtures of similar styles and ornamentation. A price list will be sent to any address on application.

The innied space of an advertisement precludes sine insertion here of the numerous testimonials of approval we have received from all quarters. Suffice it to say, selentific men and others who have examined and thoroughly tested the merits of the Vesper Gas light, pronounce it the best and cheapest artificial light now known.

Trial of D. E. Sickles. Washington, April 4.—To-day the trial of the Hon. Daniel E. Sickles for the killing of Phillip Barton Key begins, and an interest is manifested throughout this community in regard to it. The applications for admission to the dingy little m in the city hall where the Criminal Court is held have been very numerous, but so miserable are the accommodations that the reporters find great difficulty in securing seats. As to desks or tables, or other facilities for reporting this important trial, that is all out of the question. Important trial, that is all out of the question. becility and ignorance are characteristic of the old fogy officials here; though there might easily have been proper arrangements made by the introduction of tables or temporary desks, the people or March Lands (1998). ple or Marshal or whoever ought to attend to it have been practicing only the easy plan of how not to do it, and their obtuseness is so extreme that remonstrance is useless. No more than three or four reporters have been able to get facilities for writing, and, therefore, the as-ociated press are not amongst them, although application was made by them weeks ago. They have, however, ventured on taking seats at the table set apart for lawyers.

I visited Mr. Sickles in prison at a late hou last evening; there was no special hour for ex-eluding visitors when I called, and there were then three gentlemen with him, among them his father. I had not seen Mr. Sickles since his arrest, and was hardly prepared to find him looking so well. His manner was pleasantly natural; had little or no talk about the event in which so deep interest is felt; at the same time there was no apparent lesire to evade the subject. Conversation was kept up on a variety of topics, and the accused bo his part in it with such ease that no one would in agine that he bore a great and abiding grief at

his heart. The space within the bar of the court room was densely crowded with traverse jurors, lawyers, reporters and witnesses. More than the usual number of uniformed police were present. The doors were not thrown wide open to the public, at about fifty persons were privately admitted o the area, usually occupied by spectators. Many outsiders were clamoring for admittance, and a number gained ingress at the window. While While nch interest was manifested in court, there was enerally good order. The judicial preliminaries aring been concluded, Sickles was arraigned and dictment for the murder of Key read to him.—

Indictment for the murder of key read to him.—
In response to the usual question, he answered in
a firm tone, "not guilty."
The traverse jurors were severally called and
accepted or challenged, according to the character
of their responses. Out of the parcel of thirty
jurors, five only were selected and sworn. These

Seventy-five talesmen were ordered to be summoned by the Marshal, and returned at the SECOND DISPATCH.

The counsel for the prisoner is very numerous, consisting of the following gentlemen: E. M. Stanton, of Pennsylvania, Jas. P. Brady, of New York, Daniel Ratcliffe, Samuel Chilton, Graham, Magruder, and Philips, of Alabama.

Hon. Robt. Ould, United States District Attorney and James Carlisle of the Washington her. ney, and James Carlisle, of the Washington bar, appeared for the prosecution. Judge Brewster

When Mr. Sickles was brought into court he eturned the recognition of several of his friend and acquaintances, and took his seat, not beside his counsel, but near the railing that separated he lawyers from the audience.

Mr. Ould begged permission before the arraign

ment of the prisoner to state that Mr. Carlisle wa associated with him in the prosecution of this case. This association was extremely gratifying to him, and he was sure it would also be agreeable to the Court. The indictment was then read to the prisoner, charging him with the usual quan-tity of legal verbiage, with the murder of Pailip arton Key in the city of Washington on the 27th of February last. He was asked the question, "Are you guilty or not guilty?" In a clear firm tone he responded, "Not guilty." The task of getting a jury was then commenced; Jos. P. Brein was the first called. The Judge

said he would put the usual question to the juror ouching the impartiality.

Mr. Stanton stated that the defence would be attisfied with that course.

Question by the Judge—Have you at any time ormed or expressed an opinion in relation to the uilt or innocence of the accused.

Juror-I have. The Judge-You may retire.
Mr. Phillips, for the defense, proposed to ask he juror whether his opinion was founded on ru nor or a knowledge of the fact; if merely found-d on rumor and the juror could form a fair judg-nent, he contended that he was competent. The efense was anxious to obtain a jury without nnecessary delay.

The Judge permitted the examination to be

made in that way.

Question—Have you formed and expressed an nion on mere rumor or on a knowledge of the Juror-Merely on rumor.

Question-Would you be able on hearing the

evidence to render an impartial verdict?

Answer—No sir; my mind is biased in favor of Judge-Stand aside

From Washington Washington, April 8 .- The grand jury, after xamining witnesses for a week or two, has made presentments in the cases of A. G. Seamen, the ate Superintendent of Public Printing, Gen. Culom, the late Clerk of the House, and P. D. Duval, of Philadelphia. The last named was a witness be-fore the select committee to examine Mr. Seamen's account. Should the District Attorney prepare indictments, they will not be immediately acted upon by the grand jury, that body having been discharged for two weeks. Gen. Cullom, on learning the action of the grand

ury, appeared and gave bail.

The distant press is already represented in anticipation of the Sickles trial. There are more reporters here than can be comfortably accommodated with seats, and an additional number are on their way. Witnesses twere yesterday subpæned for Monday. Lawyer Drady was in court. The number of proposals received for the South-rn mail contracts are represented as fully up to he average, and as far as known the bids are generally at a higher rate than usual.

At Cincinnati at noon yesterday, the river was about stationary, having fallen but five inches since Saturday. At Pittsburgh the river was also falling, with but 6½ feet in the channel.

The Mississippi at St. Louis yesterday was at a stand, with a rise reported in the Illinois.

By dispatches from New Orleans dated Saturday the 2d, we learn that the river at that point was higher than at any period last year, with

was bigher than at any period last year, with many crevasses reported below Vicksburg. The breaks in the levees will prove the safety of the coast, and the city of New Orleans. If all the levees were to remain intact the river would overwhelm New Orleans, or sweep it from the face of the earth. The Mississippi at Cairo, the mouth of the Ohio, has been known to rise 50 feet from low water mark. The greatest rise at New Orleans on the ot er hand has only been known

Capt. Fleming of the Admiral, who has been confined to his room by severe sickness, has so far recovered as to be out yesterday. It was the Keystone that Capt. Willard had converted into a tow boat, and for St. Louis last week with coal.

The pair of coal boats of the Messrs. Watson, mention of which was made yesterday, contain 55,000 bushels of coal.

Sales of cotton to-day 8,000 bales; prices irregular: market generally unchanged. Sugar dull at 6%c.— Freights of cotton to Liverpool %c. The neat packet John Bell, now at the city wharf, is advertised for St. Louis and all way places this evening. She takes freight and passengers through to Missouri river, and as she is a stout boat in charge of clever officers, we commend her to the trade. The Baltic, Capt. Meekin, of the Lightning Line, was due from New Orleans last night. She is advertised to return to that port this evening.

The Antelope, Capt. Brown, having been laid up a while to refit, has again been brought or the track, and advertised for New Orleans Wed REDUCTION OF FARE ON New YORK CENTRAL.— The tide of travel is now Eastward, and we know of no more comfortable or cheaper route than by the mail boats, Strader or Telegraph, to Cincin-nati, and thence via the Little Miami, Columbus,

and Cleveland Lake Shore railroad to Buffalo.— This is the most direct and fastest route, and at Buffalo the best connection is by the famous New York Central, double track road, over which material reduction has been made, which, in addi-tion to the safety of the road, together with its excellent, safe management, makes it very de-

strable to travellers.

The Telegraph No. 3 is the mail and passenger packet for the East to-day, in charge of the reliable Sam Hildreth. Through tickets can be obtained of Mr. Byington, the clerk. THE DEAD OF THE NAT. HOLMES .- The Cincinnati Gazette of yesterday, has the following list of the names of the dead recovered from the wreck

of the Nat. Holmes: The Kentucky brought up from the Holmes, yesterday, 934 packages saved from the wreck. The bodies of the following persons have been got out of the wreck, nine n number, Wm. Griffith, Chas. Logan, John Yant, Luzler's two children, Samuel Owarth, son of Jacob Gurlock — Siggett, and C. Sickle. The bodies have been baried just below Belleview.

FOR ST. LOUIS AND MISSOURI RIVER .- The famous High Flyer, Capt. Tom. Wright, is the reg-ular Tuesday packet for St. Louis. She starts from Portland, and passengers and shippers will find the clerk, A. D. Armstrong, to be attentive and agreeable.

The David Tatum, in charge of Capt. Williams, a clever boatman, having been detained, takes her departure to St. Louis and the Missouri this evening. She is at Portland.

The huge propellor Adriatic was started out last evening to descend the falls, but owing to the high wind and her unwieldy proportions, she crossed the river two or three times, and finally went up the Indiana shore. The jurors thus sworn, were allowed to separate, but were duly cautioned by the judge not to speak with or listent to any newson, as the spiles. TOBACCO-Sales on Monday of 55 hhds, viz: 1 at \$2 speak with, or listen to any person, on the subject of the trial.

Mr. Stanton called the attention of the Court to the fact that the prisoner was placed in the tox, where his counsel had no ready access to the the tox. He asked the Court to order the box to be placed in such a position as would enable Mr. Sickles to confer with his counsel. In point of fact, he might as well remain in jail during the trial of his cause, as to be where he is now placed. placed.

The Judge said he could not consent to have

the prisoner's box placed beside the lawyers. It was the rule to keep it where it was placed. It might, however, be removed to the railing, directly back of the box, and the Marshal would be directly back of the box, and the Marshal would be

directed to keep the way open.

Mr. Magruder submitted that, if it was not asking too much, it would be desirable to have the prisoner confronted with the jurors and with his own case, and certainly in such a case he would not be forced to occupy such an out of the way lace. They would not ask anything for him or place. They would not ask anything for him or the ground of his public position, or on the ground of his profession, but merely what they would ask for the humblest American citizen. In the various States whence the counsel came, the prisoner is always permitted to occupy a seat beside his lawyers. He asked that such facilities

should be extended in this case.

The Judge asked whether the counsel had ever known a man to be tried for murder who was not placed in the dock. Mr. Magruder admitted that the prisoner might be first placed in the dock, but the practice in Virginia, Alabama, New York and other States was, that the prisoner should sit beside his coun-sel and have, if need be, facilities for writing. The Judge said that he had never seen a man

tried for murder who was not placed in the dock. He had never read of such a case—certainly not in England. He was not disposed to make any istinction in this case.

Mr. Stanton disclaimed a desire to have any dis inction made. They would be satisfied with the arrangement made by the Judge. Instructions to that effect were given to the Marshal, and the Court, at 1 o'clock, adjourned over till 10 o'clock to-morrow morning.

Of the witnesses called for the prosecution, the

following were present in Court: Dr. R. H. Cooledge, Dr. Stone, T. O. Martin, J. N. Reed, J. Gartnell, P. R. Wanwick, A. Upper, E. Titbull, and J. L. Dubrow. The following were absent: R. M. Downing, E. Pendleton, F. Doyle, and P. Broadbeed. From Washington.

which have just been gotten under the superintendence of our Mr. Oberndorfer, in New York. In the CLOTHING TRADE it is an entirely new feature to find a new and select stock that does not show the traces of inexperience. Our Mr. Oberndorfer, however, is not only acquainted with the Eastern markets, but he combines therewith a thorough knowledge of our home wants, and has the with the Eastern markets, but he combines therewith it thorough knowledge of our home wants, and has thu been enabled (in taking the place of the late deceased Lowenthal) to get up an assortment that will at once convince every judge that fitness for our market, taste variety and cheapness, have all been held strictly it view during the process of manufacture.
